Overview

3

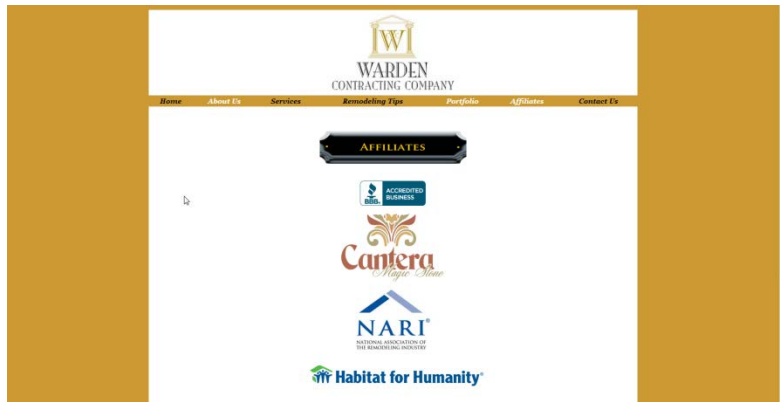

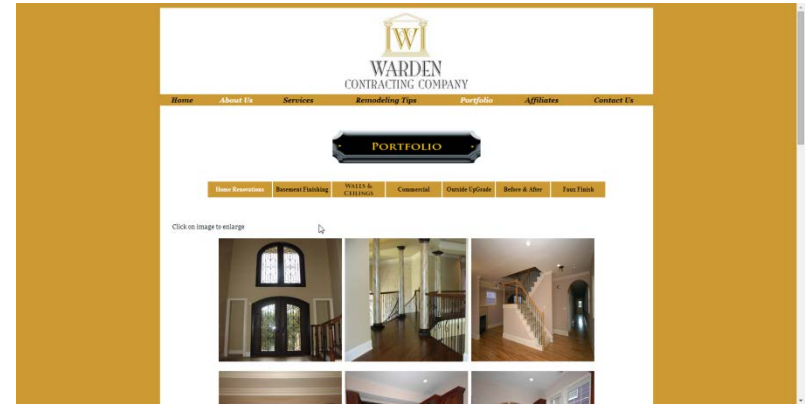

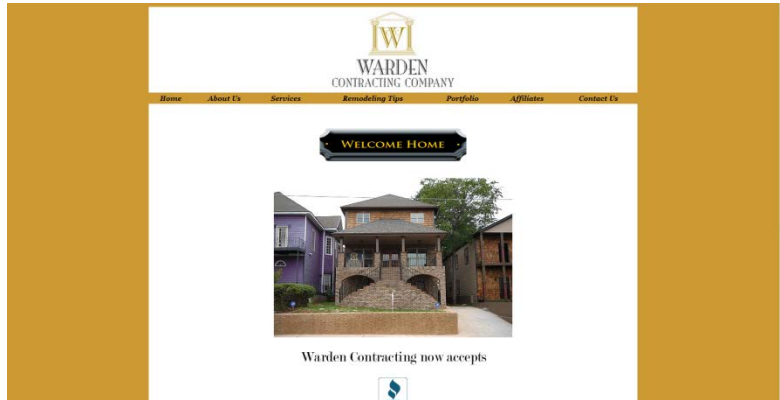

The client, Daryl Warden, wanted to update his current site look to a more modern and professional look.

What was proposed to the client was a responsive web design site that will utilize modern HTML, CSS and JavaScript for the site's structure.

My portion in the project was to design the different layouts for the different device screens of the site.

Conclusion

8

The client, Daryl Warden, was very pleased with the proposed responsive site design makeover. The site is still awaiting content from the client however the staged version can be still be viewed online.
